Hana, Maui is one of the purest expressions of the Divine Feminine on the planet. The magnificent beauty of the tropical coast of Hana, and its intense power, have an incomparable way of opening your senses that nothing else can match. Turquoise water and white waves lace together, flowing in and out from the Black Sand Beach at mystical Pailoa Bay. The contrast of colors and textures fill your consciousness, taking you to a new level of experience. Walking along paths, surreal in their beauty, your senses fill with the sights & sounds of Maui as your heart overflows with the feeling of Aloha.

For everyone with an adventurous heart, the Spirit of Maui has an astonishing way of touching your heart and opening your mind. Using Hana as our Medicine Wheel, we'll journey to special locations in East Maui to blend ancient and modern techniques with the power of the land, producing transformative change.

Action and Application make this a journey about activating what is possible ... making your resources practical and easily accessible. You'll walk timelines of your future on the Black Sand Beach of Wai'anapanapa, activating the New You in the golden dawn light of a Hana sunrise. You'll speak your dreams in the Birthing Canal, a lava tube / sea cave that carries your prayers to the East to be manifested in the cosmos. You'll carry your dreams into the Rainbow as we visit sacred Hawaiian sites, utilizing the wonders of the Maui on our journey. You'll sing your heart's song in the cathedral of the Bamboo Forest, harmonizing your being as you dip into waterfalls and pools. You can link with the spiritual thread of your life at majestic Waimoku Falls. This is your opportunity to discover how the special rhythm of this Hawaiian Island can create the environment in which wholeness, change and personal evolution unfold as naturally as a tropical sunrise.
